Come deve essere assicurata l'ancora alla sua gomenda
 HOW TO FIX THE ANCHOR TO ITS ANCHOR RING —
 Wie der Anker an seinem Ankerring zu befestigen ist —
 COMMENT IL FAUT ASSURER L'ANCRE À SON CÂBLE —

Vincenzo Lusci
1969

Il fasciame non deve essere perfettamente orizzontale ma deve seguire una linea leggermente curva. Il cui punto più basso dovrebbe trovarsi circa a metà scala ed il punto più alto a poppa.

The planking should not be perfectly horizontal, but follow a slightly bent line. The lowest point at which should be located is approximately at midlength of the hull, and the uppermost one at the stern.

Alle wanken werden aus einer sperrholzplatte von 5mm. Dicke hergestellt.

Parti da asportare.
PART TO BE REMOVED.
Zu entfernende teile.
PARTIES À ÔTER.

E' preferibile rifare di sana pianta le ordinate imperfette, ed anche la chiglia, piuttosto che ritrovarsi poi con uno scafo irregolare. Per il fasciame adoperare listelli di 3x5 di faggio o di noce, sceglierli molto flessibili. Incollarli alle ordinate e tra di loro, in costola, con collante "VINAVIL", dopo averli preventivamente aschietti a prua e a poppa, ed anche lungo le costole.

SCALA 1 30

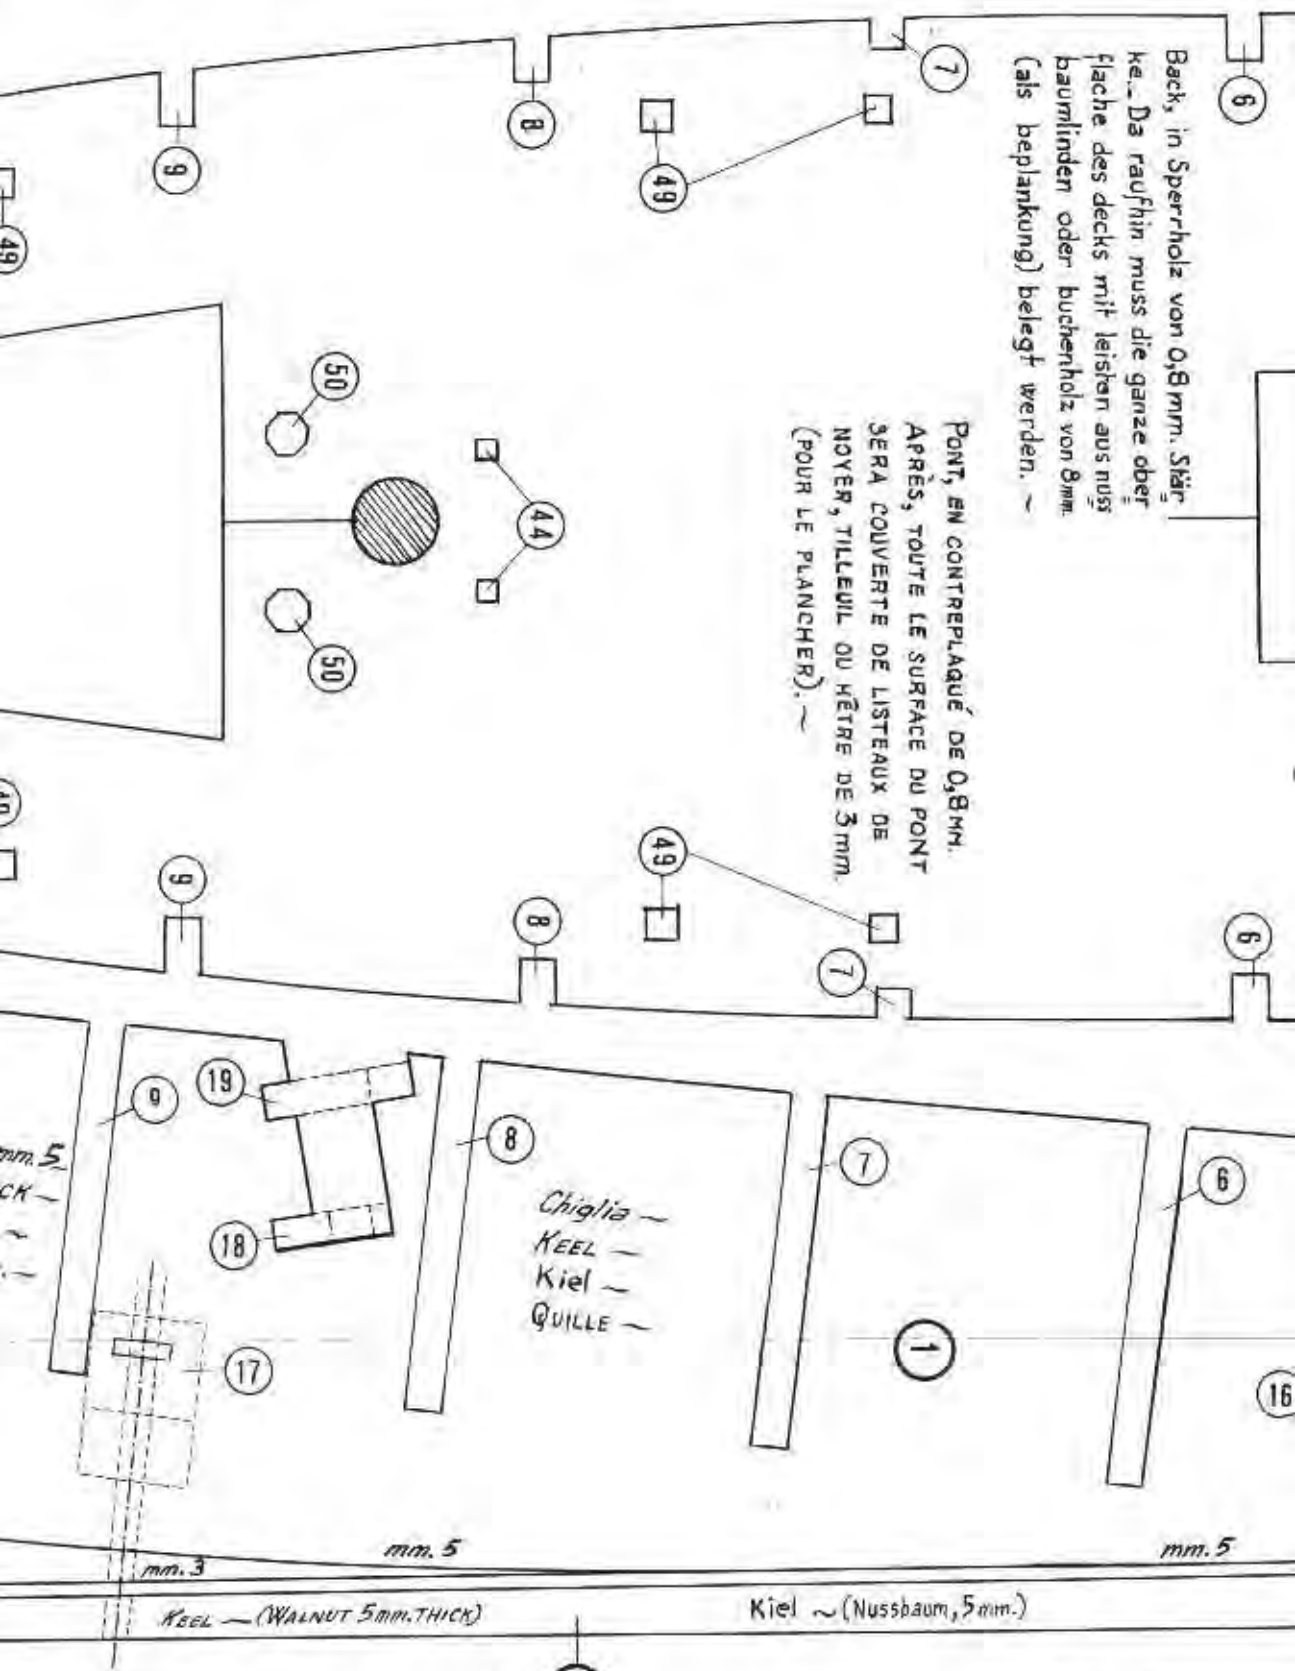

Il Catalogo Generale di tutte le pubblicazioni AUSCI (piani costruttivi, di navi antiche e moderne, disegni, guide, libri, stampe) viene inviato gratuitamente a semplici richiesta in ogni parte del mondo.

ALL THE FRAMES HAVE TO BE MADE OF PLYWOOD, 5MM. THICK. ~

ATTENZIONE!
La parte trattaglia-
ta nelle ordinate do-
vrà essere asportata
dopo la sistemazione del
fasciame. ~

Back, in Sperrholz von 0,8 mm. Stärke. Da raufhin muss die ganze oberfläche des decks mit leisten aus nussbaumblenden oder buchenholz von 8 mm. (als beplankung) belegt werden. ~

PONT, EN CONTREPLAQUÉ DE 0,8 mm. APRÈS, TOUTE LE SURFACE DU PONT SERA COUVERTE DE LISTEAUX DE NOYER, TILLEUL OU HÊTRE DE 3 mm. (POUR LE PLANCHER). ~

Prima di incastare nelle rispective tacche della chiglia bisogna smussare gli spigoli verso prua alle ordinate da 2 a 6, e gli spigoli verso poppa alle ordinate da 7 a 13.

BEFORE THE FRAMES ARE MORTISED INTO THE NOTCHES OF THE KEEL, THE EDGES OF THE FRAMES 2/6 HAVE TO BE BEVELLED TOWARDS THE BOW, AND THOSE OF THE FRAMES 7/13 TOWARDS THE STERN, IN ORDER TO ADHERE PERFECTLY TO THE PLANKING.

Sistemazione del ponte.
PLACING OF BRIDGE.

Bevor die wanken in die einschnitte am kiel eingefügt werden, muß man die ränder der wanken 2, 3, 4, 5 und 6 nach dem heck zu, die der wanken 7/13 nach dem bug zu abgeschrägen.

AVANT D'EMMORTAISER LES MEMBRES DANS LES ENTAILLES DE LA QUILLE, IL FAUTRA ÉCORNER LES CARNES DES MEMBRE 2, 3, 4, 5 ET 6 VERS LA POUPPE, ET CELLE DES MEMBRE 7/13 VERS L'AVANT.
